## THE GRAND LODGE OF MARYLAND

304 INTERNATIONAL CIR COCKEYSVILLE. MD 21030

7:00AM BREAKFAST 8:00AM-1:00PM LECTURE

Immediacy, Provisionals, and the Appropriate Steps for Challenging Cases

Presented by Ira Langstein, DDS

Restorative implant dentistry is undergoing significant change. With the development of new technologies spearheaded by innovation in the dental implant industry, we are now able to give expanded restorative options to our patients. This comprehensive program will integrate these techniques and innovative technologies into a practical approach for the restorative implant dentist and surgeon.

After attending this program, the dentist will gain a better understanding of restorative implant treatment planning in everyday clinical situations. A special focus will be on the digital workflow as it applies to the diagnostic, planning, surgical, and restorative aspects of treatment.

THIS PROGRAM IS SPONSORED BY THE STRAUMANN GROUP
