Education Events You'll Ever Experience

FRIDAY, OCTOBER 9, 2026

MARRIOTT OWINGS MILLS METRO CENTER

Implant-Assisted Prosthetics: Treatment Planning Options for Fixed, Removable, and Hybrid Restorations

Presented by
MILES R. CONE, DMD

DIPLOMATE OF THE AMERICAN BOARD OF PROSTHODONTICS
CERTIFIED DENTAL TECHNICIAN

SYNOPSIS:

This presentation will cover several real-world clinical case studies from a dual-certified prosthodontist and laboratory technician, ranging from the single central crown and multi-unit bridge to full-mouth hybrids and removable overdentures. Concepts and challenges regarding patient screening and case acceptance, communication protocols with the laboratory and surgical colleagues, material selections, provisionalization, follow-up care, and various aesthetic, biologic, and mechanical complications will be discussed.

LEARNING OBJECTIVES:

- Review various treatment planning principles found in the field of contemporary implant dentistry for both fixed and removable prosthetic options.
- Analyze many of the current materials available to the clinician and dental technician that can be utilized in the restoration of fixed and removable implant prosthetic treatment plans.
- Determine the chairside/benchtop protocols that will ensure the highest level of quality and efficacy that will augment successful patient outcomes in the final product at delivery.
- Apply new concepts and techniques within the dental clinic and dental laboratory.

SPEAKER

Dr. Miles R. Cone is a graduate of Tufts University School of Dental Medicine and completed a three-year Prosthodontic residency program while serving in the United States Army. In addition to achieving board certification and diplomate status within his specialty, Dr. Cone has also successfully challenged all the requirements necessary to earn his designation as a Certified Dental Technician. Currently, Dr. Cone’s career in civilian life revolves around his dual role in his private practice limited to prosthetic dentistry located in historic Yarmouth, Maine and his role as a Key Opinion Leader, lecturing internationally on topics ranging from implant prosthetics to photography. When Dr. Cone is not at the chair, in the classroom teaching, lecturing, or at the lab bench, he can be found traveling the world looking for adventure, or relaxing at home with his wife, four children, and English Bulldog.

“Thank you for such an awesome, realistic, and practical presentation!”
“I wanted to say how great and informative the lecture was. You have a great sense of humor, which makes learning interesting!”
“Thank you for an amazing lecture! Your passion is so inspiring!”
“I love this guy. He is so real and genuine.”

SCHEDULE

7:00 to 8:00
Breakfast & Registration

8:00 to 1:00
Lecture & Discussion

Full breakfast will be served.
There will also be a late morning break with snacks.

REGISTRATION

Registration can be completed on our education website **mdcentereducation.com**
You can also register using the enclosed registration card.
The Fee is \$100 per office
This program provides 5 CEU
